The additional **Precision-Made Pressure Plate** for all Super 8 Kodak cartridges

While using a patented pressure plate, now its possible to film using the good old Super 8 cassette while doing away with some of its inherent disadvantages.

For example:

improved picture steadiness, focus improvement, the danger of a cassette pressure window causing scratches on the base side of the film is reduced, ...

Price per pressure plate **EUR 110.00** without VAT (EUR 130.90 with VAT)

The pressure plate is a product of *GK Film Bielefeld*. Legally protected with patent no. 20204191.3

For more information and payment conditions please look at www.andecfilm.de or contact us.

Prices (including tape material) in Euro without VAT and shipping costs.

(Specify mode of transport when placing your order.)
